

ACIDOPHILUS

SURVIVES STOMACH ACID

Shelf Stable

Dietary Supplement

Supplement Facts

Serving Size: 1 Capsule

Amount Per Serving	%DV
Lactobacillus blend (<i>L. acidophilus</i> La-14, <i>L. bulgaricus</i> Lb-64) (500 Million viable cells per serving)	7 mg*

*Daily Value not established

Other Ingredients: Capsule (gelatin, water), rice flour, microcrystalline cellulose, silica and magnesium stearate. Contains milk.

The Lactobacillus strains used in this blend are produced exclusively by Danisco, a world leader in probiotics.

The combination of *L. acidophilus* and *L. bulgaricus* strains help to nurture and support healthy intestinal flora for good digestion. †

Danisco's probiotic strains are stabilized using a patented poly matrix system (patent # 6,653,062) that provides shelf stability at normal room temperature. No refrigeration required.

Each **Bio-Enhanced, Acid Resistant Strain (BEARS)** has been specifically designed to survive stomach acid secretions during digestion. BEARS eliminates the need for enteric coating by preventing the destruction of viable cells that occurs when weaker strains are exposed to an acid environment.

Contains No salt, yeast, wheat, gluten, corn, soy, preservatives, artificial colors or flavor.

Suggested Use: As a dietary supplement, adults take one capsule, two (2) to three (3) times daily, during meals, or as directed by a health care professional. Store in a cool, dry place and away from direct light.

Keep out of reach of children.
